2. \	What is your Home name	

Other (please specify)

#### \* 3. In COPD:

	True	False	Don't Know
In COPD the word "chronic" means it is severe.	$\bigcirc$	$\bigcirc$	$\bigcirc$
COPD can only be confirmed by breathing tests.	$\bigcirc$	$\bigcirc$	$\bigcirc$
In COPD there is usually gradual worsening over time.	$\bigcirc$	$\bigcirc$	$\bigcirc$
In COPD oxygen levels in the blood are always low.	$\bigcirc$	$\bigcirc$	$\bigcirc$
COPD is unusual in people less than 40 years old.	$\bigcirc$	$\bigcirc$	$\bigcirc$

## \* 4. COPD:

	True	False	Don't Know
More than 80% of COPD cases are caused by cigarette smoking.	$\bigcirc$	$\bigcirc$	$\bigcirc$
COPD can be caused by occupational dust exposure.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Longstanding asthma can develop into COPD.	$\bigcirc$	$\bigcirc$	0
COPD is commonly an inherited disease.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Women are less vulnerable to the effects of cigarette smoking than men.	$\bigcirc$	$\bigcirc$	$\bigcirc$

# \* 5. The following symptoms are COMMON in COPD:

	True	False	Don't Know
Swelling of the ankles	$\bigcirc$	$\bigcirc$	$\bigcirc$
Fatigue (tiredness)	$\bigcirc$	$\bigcirc$	$\bigcirc$
Wheezing	$\bigcirc$	$\bigcirc$	$\bigcirc$
Crushing chest pain	$\bigcirc$	$\bigcirc$	$\bigcirc$
Rapid weight loss	$\bigcirc$	$\bigcirc$	$\bigcirc$

#### \* 6. Breathlessness in COPD:

	True	False	Don't Know
Severe breathlessness prevents travel by air.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Breathlessness can be worsened by eating large meals.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Breathlessness means that your oxygen levels are low.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Breathlessness is a normal response to exercise.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Breathlessness is primarily caused by a narrowing of the bronchial tubes.	$\bigcirc$	$\bigcirc$	$\bigcirc$

* 7. Phlegm (sputum):							
		True	False	Don't Know			
	Coughing phlegm is a common symptom in COPD.	$\bigcirc$	$\bigcirc$	0			
	Clearing phlegm is more difficult if you get dehydrated.	$\bigcirc$	$\bigcirc$	$\bigcirc$			
	Bronchodilator inhalers can help clear phlegm.	$\bigcirc$	$\bigcirc$	$\bigcirc$			
	Phlegm causes harm is swallowed	$\bigcirc$	$\bigcirc$	$\bigcirc$			
	Clearing phlegm can be assisted by breathing exercises.	$\bigcirc$	$\bigcirc$	$\bigcirc$			

#### \* 8. Chest infections/exacerbations

	True	False	Don'tKnow
Chest infections often cause coughing of blood.	$\bigcirc$	$\bigcirc$	$\bigcirc$
With chest infections phlegm usually becomes coloured (yellow or green).	$\bigcirc$	$\bigcirc$	$\bigcirc$
Exacerbations (episodes of worsening) can occur in the absence of a chest infection.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Chest infections are always accompanied by a high temperature.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Steroid tablets should be taken whenever there is an exacerbation.	$\bigcirc$	$\bigcirc$	$\bigcirc$

## \* 9. Exercise in COPD:

	True	False	Don't Know
Walking is better exercise than breathing exercises to improve fitness.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Exercise should be avoided as it strains the lungs.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Exercise can help maintain your bone density.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Exercise helps relieve depression.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Exercise should be stopped if it makes you breathless.	$\bigcirc$	$\bigcirc$	$\bigcirc$

### \* 10. Smoking:

	True	False	Don't Know
Stopping smoking will reduce the risk of heart disease.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Stopping smoking will slow down further lung damage.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Stopping smoking is pointless as the damage is done.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Stopping smoking usually results in improved lung function.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Nicotine replacement therapy is only available on prescription.	$\bigcirc$	$\bigcirc$	$\bigcirc$

* 11. Vaccination:	* 11 Vaccination:					
	True	False	Don't Know			
A flu shot is recommended every year.	$\bigcirc$	$\bigcirc$	$\bigcirc$			
You can get the flu from having a flu shot.	$\bigcirc$	$\bigcirc$	$\bigcirc$			
You can only have a flu shot if you are 65 or over.	$\bigcirc$	$\bigcirc$	$\bigcirc$			
A pneumonia shot protects you against all forms of pneumonia.	$\bigcirc$	$\bigcirc$	$\bigcirc$			
You can have a pneumonia shot and a flu shot on the same day.	$\bigcirc$	$\bigcirc$	$\bigcirc$			

### \* 12. Inhaled bronchodilators:

	True	False	Don't Know
All bronchodilators act quickly (within 10 minutes).	$\bigcirc$	$\bigcirc$	0
Both short and long acting bronchodilators can be taken on the same day.	$\bigcirc$	$\bigcirc$	$\bigcirc$
spacers (e.g. volumatic, nebuhaler, aerochamber) should be dried with a towel after washing.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Using a spacer device will increase the amount of drug deposited in the lungs,	$\bigcirc$	$\bigcirc$	$\bigcirc$
Tremor may be a side effect of bronchodilators.	$\bigcirc$	$\bigcirc$	$\bigcirc$

* 13. Antibiotic treatment in COPD:					
	True	False	Don't Know		
To be effective, the course should last at least 10 days.	$\bigcirc$	$\bigcirc$	$\bigcirc$		
Excessive use of antibiotics can cause resistant bacteria (germs).	$\bigcirc$	$\bigcirc$	$\bigcirc$		
Antibiotics will clear all chest infections.	$\bigcirc$	$\bigcirc$	$\bigcirc$		
Antibiotic treatment is necessary for an exacerbation (worsening) however mild.	$\bigcirc$	$\bigcirc$	$\bigcirc$		
You should seek advice if antibiotics cause severe diarrhoea.	$\bigcirc$	$\bigcirc$	$\bigcirc$		

# \* 14. Steroid tablet given for COPD (e.g. Prednisolone):

	True	False	Don't Know
Steroid tablets help strengthen muscles.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Steroid tablets should be avoided if there is a chest infection.	$\bigcirc$	$\bigcirc$	$\bigcirc$
The risk of long-term side effects due to steroids is less with short courses than with continuous treatment	$\bigcirc$	$\bigcirc$	$\bigcirc$
Indigestion is a common side effect from using steroid tablets	$\bigcirc$	$\bigcirc$	$\bigcirc$
You should seek advice if antibiotics cause severe diarrhoea.	$\bigcirc$	$\bigcirc$	$\bigcirc$

* 15. Inhaled Steroids. (Brown, red or orange)						
	True	False	Don't Know			
Inhaled steroids should be stopped if you are given steroid tablets	$\bigcirc$	$\bigcirc$	$\bigcirc$			
Steroids inhalers can be used for rapid relief of breathlessness	$\bigcirc$	$\bigcirc$	$\bigcirc$			
Spacer devices reduce the risk of getting thrush in the mouth.	$\bigcirc$	$\bigcirc$	$\bigcirc$			
Steroids inhaler should be taken before your bronchodiltor	$\bigcirc$	$\bigcirc$	$\bigcirc$			
Inhaled steroids improve lung function in COPD	$\bigcirc$	$\bigcirc$	$\bigcirc$
